Apple Sink or Float Observation Activity

1. Choose objects you want to investigate. Write the name of each one in the first column.

2. Predict (guess) if it will sink or float. Write S (sink) or F (float) in the second column.

3. Place the object in the water and watch what happens.

4. Put an X in the correct column to show what happened.

5. What do you notice about the items that sank? Floated?

Object	Prediction Sink or Float?	Observation Sink	Observation Float
